### Position Description

Successful applicants will work with the CDC to help it to achieve its purpose to:

- Undertake initiatives to increase the representation of culturally diverse women in board and leadership roles.
- Increase opportunities and access for women with aspirations to develop boards careers (i.e., training, coaching, internship and/or networking opportunities).
- Celebrate success through storytelling.

---

### About The Organisation

Women on Boards (WOB) has established a Cultural Diversity Committee (CDC) with the aim of addressing barriers to opportunity and access to leadership and board & committee roles for culturally diverse women in Australia.

While WOB's mission is to encourage and increase the assignment of women on boards, it also recognises that correcting the cultural diversity imbalance within gender is also an important step toward achieving optimally functioning boards. Our CDC is working to identify and address the barriers to opportunity and access to board and leadership roles for culturally diverse women.
